

Master Builders Association

New South Wales

TRAINING

www.masterbuilderstraining.com.au

Serving our Members and the Industry since 1873

Tradies! Turn your valuable experience into a formal qualification via the Master Builders RPL process.

Master Builders Association of NSW can get your past work experience and trade skills recognised through the Recognition of Prior Learning (RPL) assessment process so you can work legally in Australia.

We specialise in Certificate III assessments in the following Trades: Carpentry, Bricklaying/Blocklaying, Concreting, Solid Plastering, Roof Plumbing, Construction Waterproofing, Wall & Ceiling Lining, Wall & Floor Tiling, Roof Tiling, Flooring Technology, Shopfitting, Painting and Decorating, Furniture Making (Cabinet Making) and Engineering. We also provide Certificate I and II assessments.

Why earn your qualifications with the Master Builders?

We offer:

- Skill based onsite assessments with Recognition of Prior Learning (RPL) and Naturally Occuring Evidence
- Flexible self paced learning
- Trade recognition
- Easy payment options
- Trainers & assessors who are Industry experts with hands on experience
- Industry leaders with 135 years of industry representation

So why go to anyone else?

And further, if you are looking to become a Licensed Contractor/Builder, we can show you how and help you improve your work opportunities. We also offer:

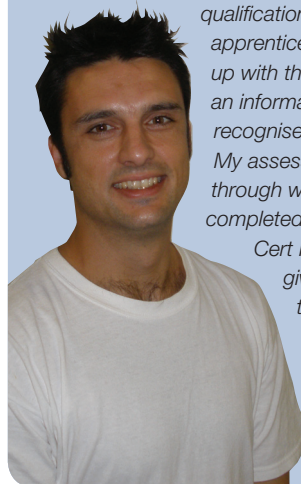

- Certificate IV in Building and Construction (building) CPC40110
- Certificate IV in Building and Construction (contracts administration) CPC40208
- Certificate IV in Building and Construction (estimating) CPC40308
- Certificate IV in Swimming Pool and Spa Building CPC40808
- Diploma of Building and Construction (building) CPC50210
- Kitchen Bathroom & Laundry renovation - Statement of Attainment

"I didn't want to go to TAFE and do all that studying to get a licence. A friend told me about the Master Builders who I contacted and the assessor was more than helpful. I obtained my Certificate III course in Carpentry, a task made easier by recognising my existing skills and prior learning. Now getting a builder's licence is the next step. I'll continue studying with the Master Builders, they'll find the gaps and help me get the knowledge. I was very lucky to hear about them."

Petr Havlicek
Czech living in Gosford

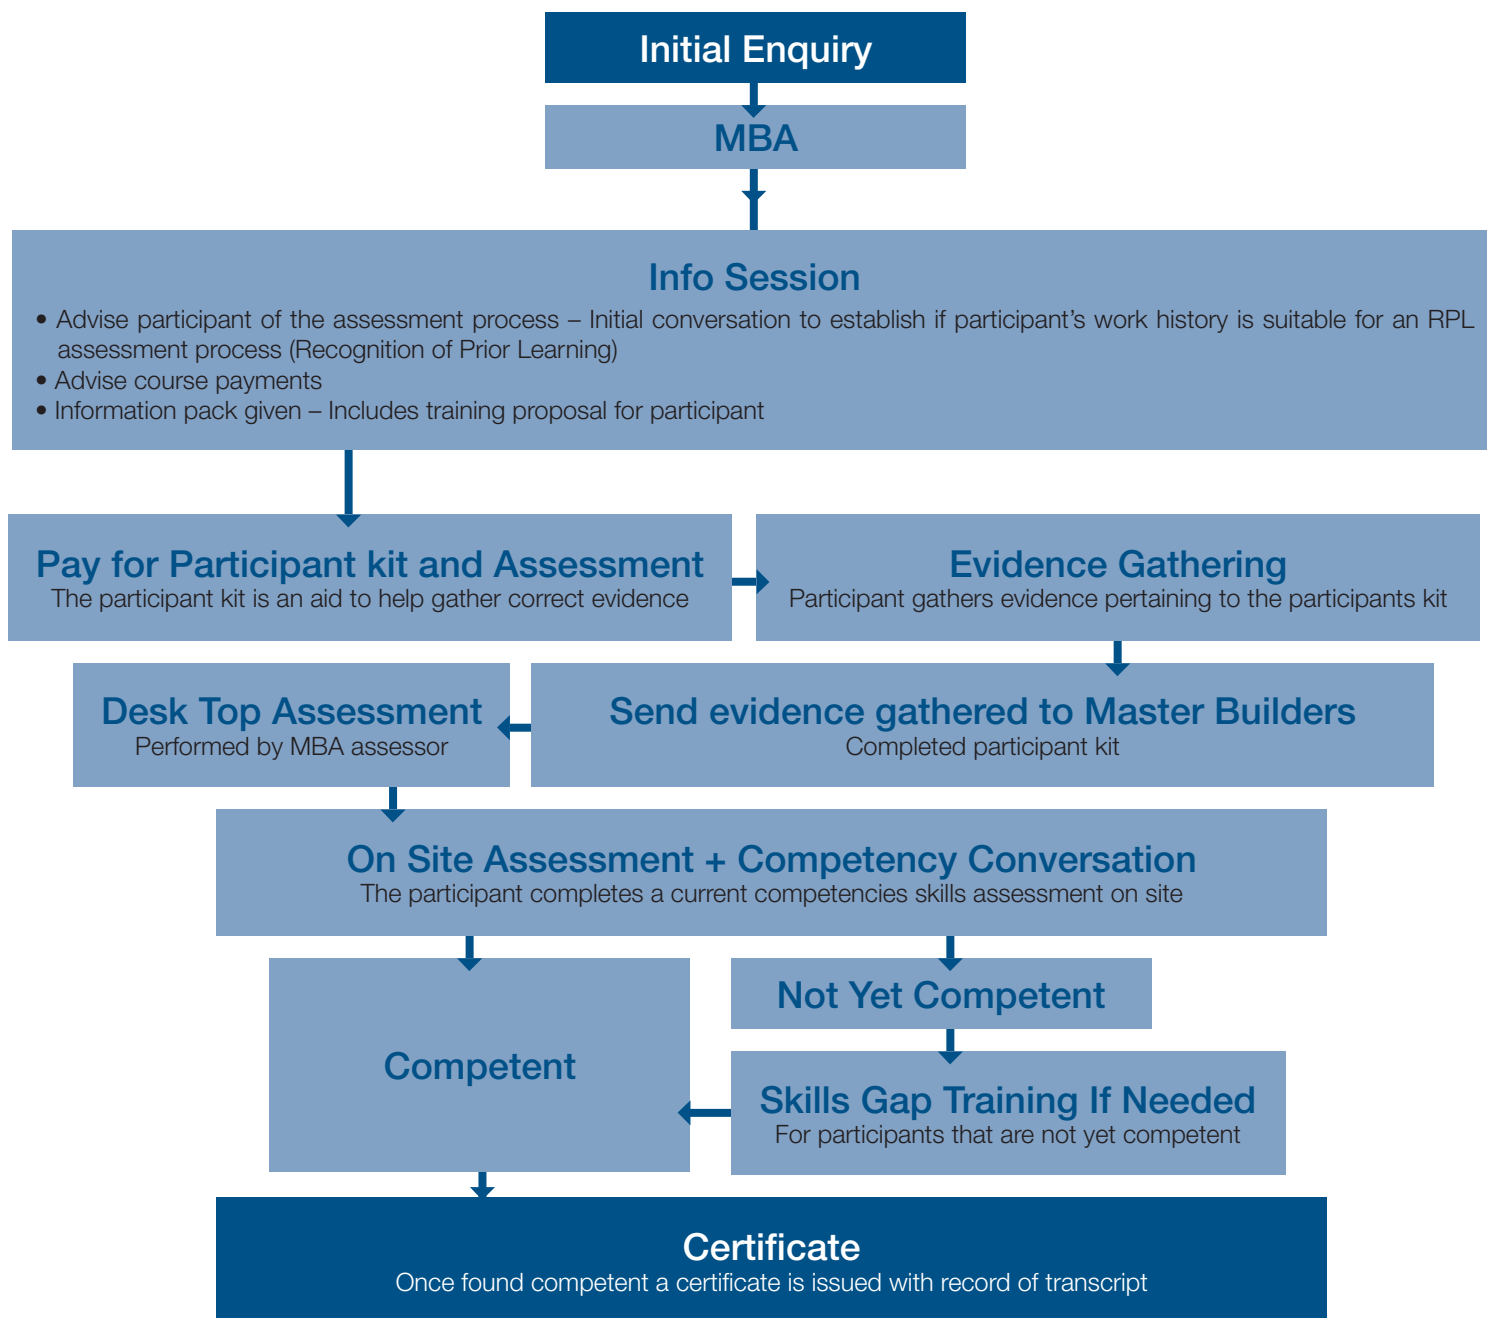

"I had plenty of experience but no formal qualification. The thought of doing a full apprenticeship was not an option so I signed up with the Master Builders after attending an information night. Having my existing skills recognised and shortfalls identified was fantastic. My assessor was like a mentor guiding me through with positive encouragement. I have completed my Cert III now and have enrolled in Cert IV in Building. The Master Builders has given me the confidence and backing to follow my dreams of becoming a builder. I can't thank them enough."
